

LOGIN AND ADMINISTRATION OF USER PROFILE, AIRCRAFT AND SAFE-LIFE

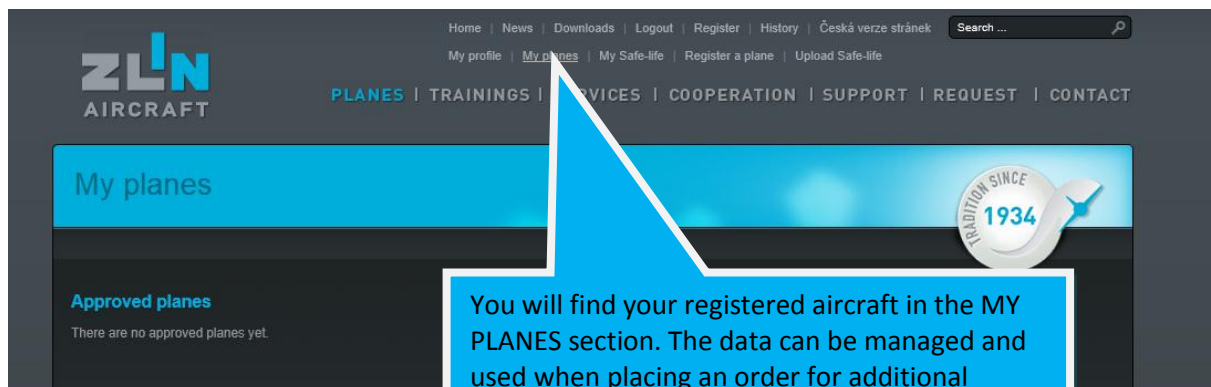

How to log in?

As soon as you receive a contact email confirming your successful registration, click on the LOGIN section on the top bar and enter your LOGIN and PASSWORD. Confirm by clicking on LOGIN.

Successful Login

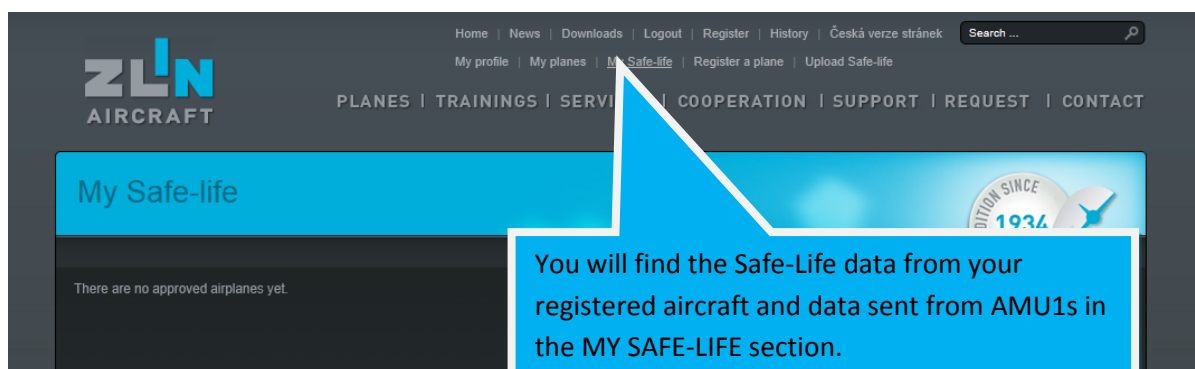

Upon successful login, another menu will appear: MY PROFILE, MY PLANES, MY SAFE-LIFE, REGISTER A PLANE, and UPLOAD SAFE-LIFE.

My Planes

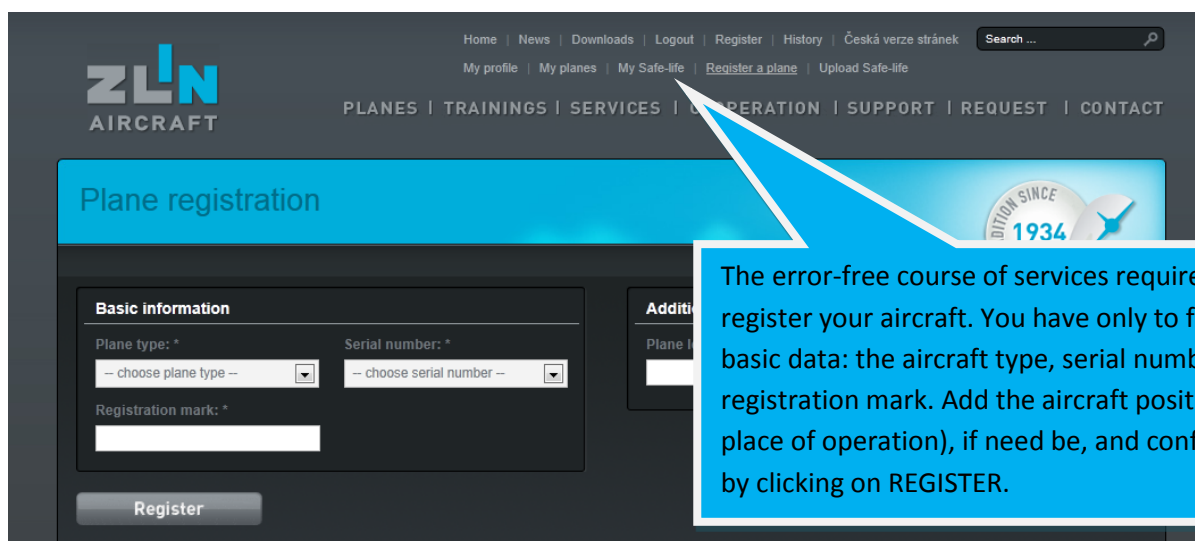

You will find your registered aircraft in the MY PLANES section. The data can be managed and used when placing an order for additional services.

My Safe-Life

You will find the Safe-Life data from your registered aircraft and data sent from AMU1s in the MY SAFE-LIFE section.

Register a plane

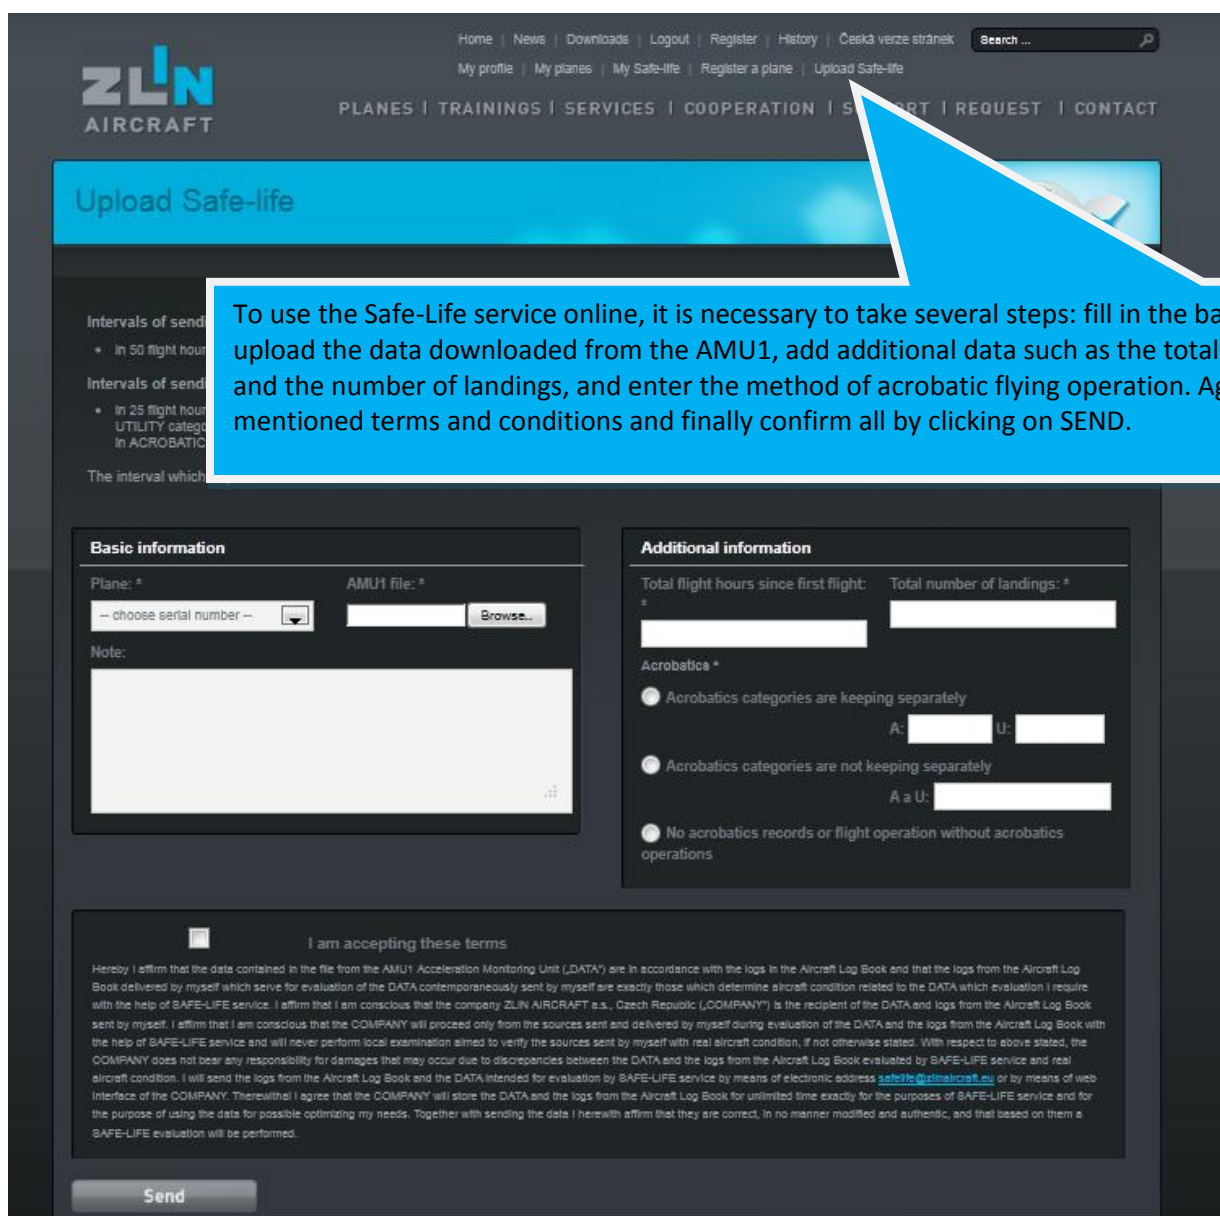

The error-free course of services requires you to register your aircraft. You have only to fill in the basic data: the aircraft type, serial number and registration mark. Add the aircraft position (the place of operation), if need be, and confirm all by clicking on REGISTER.

Upload Safe-Life

The Safe-Life service serves to monitor the safe life of aircraft of the ZLIN brand (the Z 40 and Z 50 series). Meeting the following conditions is necessary for use of this service:

- ✓ The aircraft is physically fitted with an AMU1 registration accelerometer.
- ✓ The user has carried out the registration of the aircraft that will be monitored.
- ✓ The user sends data for evaluation at the specified intervals.

I am accepting these terms

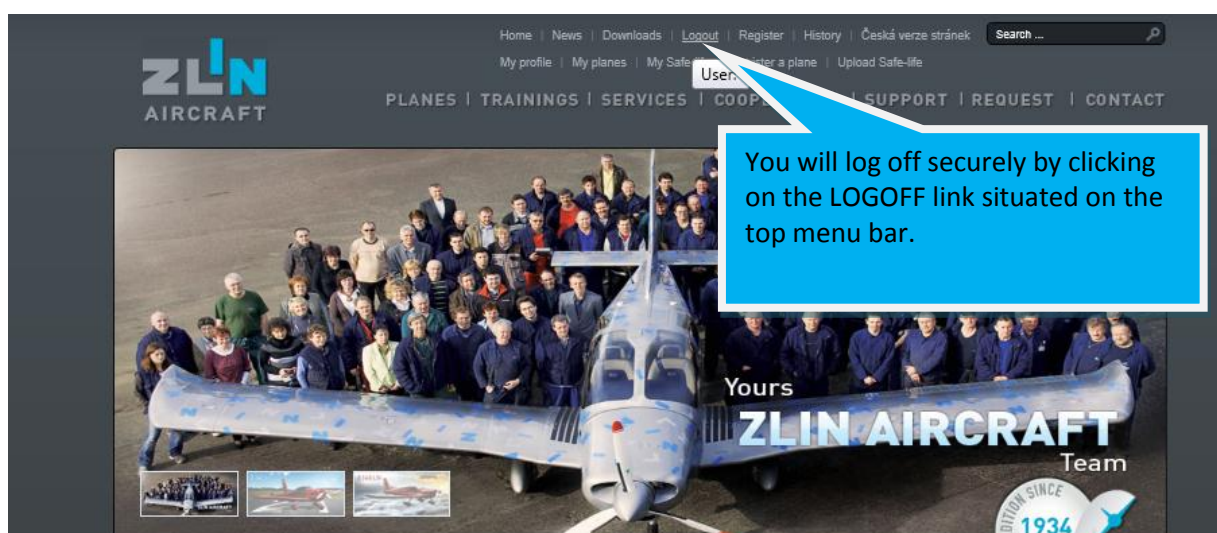

Hereby I affirm that the data contained in the file from the AMU1 Acceleration Monitoring Unit (.DATA) are in accordance with the logs in the Aircraft Log Book and that the logs from the Aircraft Log Book delivered by myself which serve for evaluation of the DATA contemporaneously sent by myself are exactly those which determine aircraft condition related to the DATA which evaluation I require with the help of SAFE-LIFE service. I affirm that I am conscious that the company ZLIN AIRCRAFT a.s., Czech Republic (COMPANY) is the recipient of the DATA and logs from the Aircraft Log Book sent by myself. I affirm that I am conscious that the COMPANY will proceed only from the sources sent and delivered by myself during evaluation of the DATA and the logs from the Aircraft Log Book with the help of SAFE-LIFE service and will never perform local examination aimed to verify the sources sent by myself with real aircraft condition, if not otherwise stated. With respect to above stated, the COMPANY does not bear any responsibility for damages that may occur due to discrepancies between the DATA and the logs from the Aircraft Log Book evaluated by SAFE-LIFE service and real aircraft condition. I will send the logs from the Aircraft Log Book and the DATA intended for evaluation by SAFE-LIFE service by means of electronic address safeLife@zlinaircraft.eu or by means of web Interface of the COMPANY. Therewith I agree that the COMPANY will store the DATA and the logs from the Aircraft Log Book for unlimited time exactly for the purposes of SAFE-LIFE service and for the purpose of using the data for possible optimizing my needs. Together with sending the data I herewith affirm that they are correct, in no manner modified and authentic, and that based on them a SAFE-LIFE evaluation will be performed.

Send

To use the Safe-Life service online, it is necessary to take several steps: fill in the basic data, upload the data downloaded from the AMU1, add additional data such as the total flying hours and the number of landings, and enter the method of acrobatic flying operation. Agree with the mentioned terms and conditions and finally confirm all by clicking on SEND.

You will find more information on Safe-Life at <http://www.zlinaircraft.eu/cz/safe-life> where it is also possible to download an AMU Viewer DEMO version to try a unique assistant that allows you to determine the extent of possible fatigue damage to aircraft.

How to log off?

We thank you for use of our services. We believe that these instructions have been helpful for you.

Your ZLIN AIRCRAFT team.
